

Abbey Precision

Application Procedure

Abbey Precision currently employs approximately 25 staff members, of which 16 are production engineers.

To apply for any position, please write to the company, preferably via email, stating which position you are interested in.

Emails should be sent to recruitment@abbeyprecision.com

Your email should contain as a minimum:

- Your CV
- Your contact details, if not included in your CV
- Notice period in your current job, if any
- And ideally, an application letter, stating why you think you are suited for the role

Visits to Abbey Precision are encouraged before applications are submitted.

We will consider CVs from excellent candidates at any time.

Currently advertised roles:

- CNC Engineer for our turning or milling section
- CNC Engineer with offline programming and 5th axis experience
- Engineer- with setting/operating experience
